

**APRILIA MILLE
SARGENT WORLD SPORT PERFORMANCE SEAT
INSTALLATION GUIDE**

Installation

Begin by sliding the seat forward and down, putting firm pressure with the thumbs on the front, to hook the front seat tongue under the receiver. Before proceeding, verify that the front seat tongue is secured by lifting up on the front of the seat.

To finish the installation, install the two rear bolts by gently lifting up on the rear corners of the foam to gain access to the threaded holes. If using fast access pins, install the pre-calibrated pins. (See Fast Access Instructions for pin calibration.)
