

**BMW K 1600 GTL EXCLUSIVE
SEAT UPHOLSTERY COLOR MATCH NOTICE**

IMAGE:

Note that the image shown contains no post-processing or manipulation of colors.

SARGENT Material:

We have chosen a premium vinyl that is as close as possible to the exclusive OEM material. Due to variations in the OEM material, even per panel on the same motorcycle, it is not possible for us to offer an exact match in a premium vinyl product. However, our material is extremely close. The image below is taken outdoors (overcast sun) with no post processing of the image colors. If you are concerned about the color match, we will happily send samples for your examination and comparison to your particular bike.

Other Ordering Options:

Sargent also offers a “passenger backrest component replacement upholstery program,” by which we can supply all new rear backrest upholstery components in a matching material to our World Sport Performance Seat. This assures an exact match of all components in a high quality vinyl. Black and other color options are available under this program as well. Please consult a Sargent Sales Representative for further details.
